
The Cherry Hungry Caterpillar

Turn a handful of bing cherries into a healthy treat that's as cute as a bug.

- Bing cherries
- Cream cheese
- Decorators' Gel

Step 1

Use dabs of cream cheese to attach six bing cherries in a curved line.

Step 2

Sandwich cherry-stem antennae between the front two cherries.

Step 3

For eyes, roll two small balls of cream cheese, press them flat onto the head cherry, and top them with decorators' gel pupils. Be sure to warn snackers about the cherry pits.
