

Students on Governing Boards

The Board of Directors realizes the goal of public education is to educate students. However, the Board of Directors is not able to experience public education at work. Therefore, the Board of Directors seeks the advice and experience of students that attend school in the West Valley School District. For this reason, the Board of Directors has created non-voting, Advisory Board positions for two high school students. These Student Director positions will be held by high school students enrolled at West Valley High School.

Adoption Date: 12/10/07
Classification: Discretionary
