1. Please describe how the funds will be spent to address student learning recovery and acceleration.

Funds will be spent to fund salaries of Certified and Classified staff supporting our students most impacted these past two school years. Staff will be specifically working with our students qualifying for Special Education, ELL, Migrant, Title I, and LAP services. We will also be funding additional grade level teachers to lower class size at the Elementary level to decrease the student to teacher ratio and increase the time teachers can work with individual students.
